1. Introduction of the Event / Activity:

The Department of Prosthodontics has organized the said event on the topic "Full Mouth Rehabilitation - Keys for Success" which was 17th Continuing Prosthodontic Education (International) Program of the department.

2. Objectives :

The area of Full Mouth Rehabilitation is an aspect of dentistry that has always been a challenge to both patients and Dentists. This is due to its all-encompassing, complex nature and the enigma of where to put teeth in 3-D space. This is where the Prosthodontist plays a key role in envisioning the treatment plan, and then executing it. It is easier said than done, however, and most Prosthodontists find rehabilitation daunting. Like anything complex, if it is broken down into bite sized recipes, a Full Mouth Rehabilitation is quite simple (never easy but simple).

3. Brief Information on Proceeding:

The invited speakers for the event were Dr Kushal Jaju and Dr Janu Shah, Prosthodontist with vast experience. they had enlightened the participants with intricacies of Full Mouth Rehabilitation in Prosthodontics.

4. Conclusion:

the 17th continuing Prosthodontic education program had successfully conducted at Orthodontics seminar room, KMSDCH and imparted useful insights into Full Mouth Rehabilitation in dentistry.
